Judging letter from [REDACTED]

 July 11, 2024.

U.S. Department of Homeland Security
U.S. Citizenship & Immigration Services

Dear Officer,

I am writing to affirm that Mr. Pierre-Simon Ntiruhungwa served as an adjudicator for the pitch session at the HackMed 2020 hackathon, held at University College London (UCL) on the 23rd of February, 2020. At that time, I was the President of MedTech UCL, a notable student union group at UCL.

MedTech UCL is committed to driving forward the field of medical technology by encouraging creativity and cooperation among students and professionals alike. Our gatherings draw noteworthy attendees from across various medical and tech industries, showcasing our dedication to superior standards and leadership in these areas.

We invited Mr. Ntiruhungwa to act as a judge for the pitch session owing to his outstanding contributions at Founders of the Future, an organization distinguished for cultivating entrepreneurial talent within a similar demographic. His rich experience in overseeing and judging hackathon competitions positioned him uniquely to appraise the innovative projects presented at HackMed 2020. During the event, Mr. Ntiruhungwa evaluated the projects based on innovation, practicality, and potential impact.

His expertise and insights were of considerable value to the event's success, and his role as a judge was greatly appreciated by the participants and the organizing committee alike.

Best regards,
