U.S. Citizenship and Immigration Services

Dear USCIS Officer,

I am writing this letter in enthusiastic support of Pierre-Simon Ntiruhungwa's petition for a United States's visa. My name is [REDACTED], and I am the co-founder and chairman of [REDACTED]. As a global community and group of businesses empowering entrepreneurs at every stage of their journeys, it includes the world's most inspiring founders, pioneering investors, inventive CEOs, and impactful leaders. Together, we champion entrepreneurial innovation and put the needs of today's founders first, via networking & events, education, professional services, investment, and philanthropy. I am honoured to provide this recommendation based on my direct professional relationship with Pierre-Simon.

Pierre-Simon and I co-founded Founders of the Future in February 2016, an organisation that played a crucial role within the larger Founders Forum ecosystem by nurturing the next generation of world-changing entrepreneurs. From its inception until February 2021, Pierre-Simon led the initiative with extraordinary vision and dedication, significantly shaping its direction and success.

Founding and Leadership:

As the head of Founders of the Future, Pierre-Simon was responsible for creating and managing all the programmes, events, and strategic initiatives. His ability to execute our vision was instrumental in the growth and success of the organisation. Under his leadership, our initiatives fostered an environment where young entrepreneurs could thrive, providing them with the necessary resources, mentorship, and network connections.

Impact and Reach:

During his tenure, Founders of the Future organised over 80 events, positively impacting more than 4,000 aspiring entrepreneurs. These events were meticulously designed to identify and support future tech founders, many of whom have gone on to secure substantial funding and establish impactful companies. Prominent examples include UK tech startups Yapily, accuRx, and Flock, which were started by Founders of the Future members first spotted by Pierre-Simon. These startups have raised a combined total of almost \$180 million (\$69 million

for Yapily, \$50 million for accuRx, and \$58 million for Flock). These are just a few examples of the many successful outcomes achieved under Pierre-Simon's leadership.

Enhancing the Founders Forum Brand:

Founders of the Future considerably bolstered the overall brand of Founders Forum. Pierre-Simon's efforts in promoting diversity in entrepreneurship, including initiatives focused on gender and ethnicity, have been exemplary. He has also been listed as one of the top 100 BAME (Black, Asian, and other Ethnic Minorities) in tech in the UK by the Financial Times. The partnerships he established with renowned media outlets like The Times and Wired UK, and major corporations such as Royal Bank of Scotland, EY, Santander, and Barclays, reflect the high-calibre engagement and influence of our initiatives.

Notable Achievements and Collaborations:

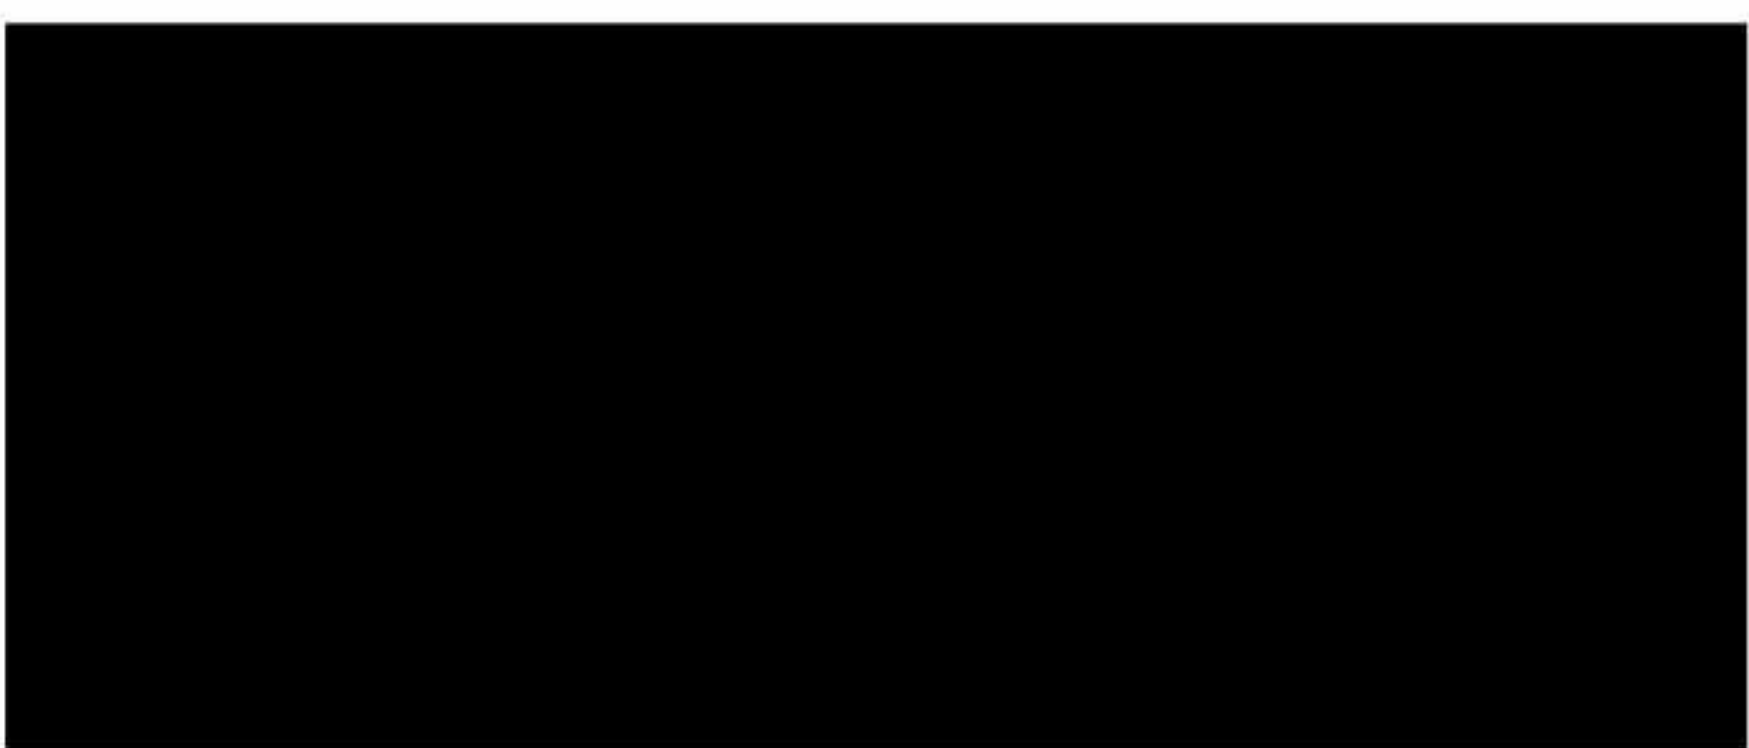

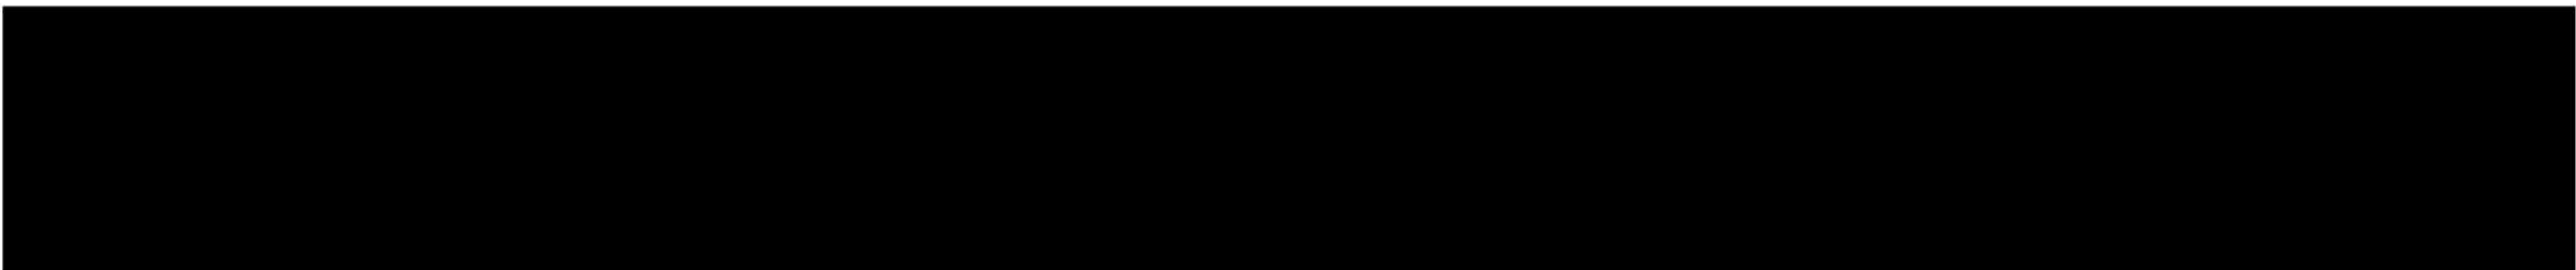

One of the hallmark achievements was our launch event at 10 Downing Street, attended by 100 influential individuals. This event highlighted the importance and recognition of Founders of the Future and further solidified its status within the entrepreneurial community. Additionally, Pierre-Simon's role as a mentor for Nile Rodgers's We Are Family Foundation and his involvement in selecting entrepreneurs for an event with the Prince and Princess of Wales emphasised his leadership and commitment to fostering talent.

In summary, Pierre-Simon Ntiruhungwa's leadership and critical role at Founders of the Future have had a substantial impact on the organisation and the broader Founders Forum community. His relentless dedication, strategic foresight, and ability to inspire young entrepreneurs clearly demonstrate he possesses extraordinary abilities and qualifications.

I wholeheartedly support Pierre-Simon Ntiruhungwa's visa application and am confident that his continued contributions will greatly benefit the field of entrepreneurship.

Please feel free to contact me if you require any further information.

Sincerely,
